

# Interdisciplinar Graduate Seminar 2013

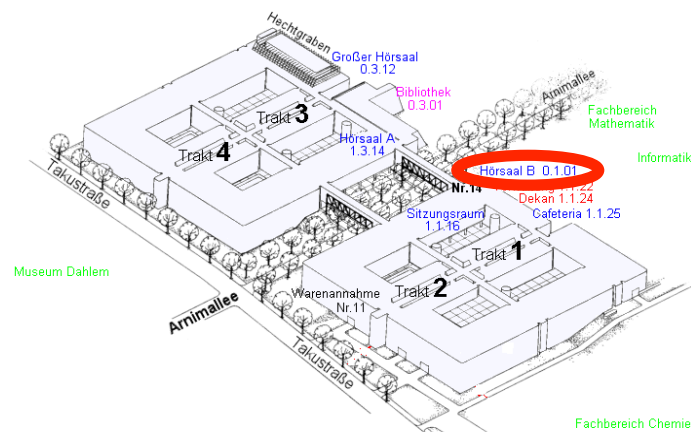

## “Molecular switches at surfaces”

Freie Universität Berlin, FB Physik, Arnimallee 14

Hörsaal B (room no. 0.1.01)

Mon, 25th March

10:00	<b>Kramer Campen</b> (Fritz-Haber-Institut): Interfacial spectroscopy: A tool for characterization of semiconductor surface structures and surface solvation
11:00	discussion
11:15	<b>Stefan Fölsch</b> (Paul-Drude-Institut): Manipulation and spectroscopy of adsorbates by low-temperature scanning tunneling microscopy
12:15	discussion
12:30	<i>Lunch break</i>
14:00	<b>Andreas Knorr</b> (Technische Universität Berlin): Theory of the optical response of semiconductors: Basic principles
15:00	discussion
15:15	<b>Karola Rück-Braun</b> (Technische Universität Berlin): Silicon Surfaces: Monolayer Preparation and Application
16:15	discussion
16:30	<b>Summary &amp; End</b>

Freie Universität Berlin, Fachbereich Physik, Arnimallee 14, D-14195 Berlin, Germany
