

Embedding External Content

Embedding Twitter:

1. Log into Twitter

2. Click on the gearwheel in the right upper section of the page and select "Settings" in the dropdown-list.

3. Select "Widgets" from the list on the left.

4. Click on "Create New"

5. Select the tab "User timeline"

6. Enter the account name that is to be embedded, e.g. FU_Berlin.

7. Click on "Create widget".

```
<a class="twitter-timeline" href="https://twitter.com/FU_Berlin" data-widget-id="422719491143786496">Tweets by @FU_Berlin</a>
<script>function(d,s,id){var js,fjs=d.getElementsByTagName(s)
```

Copy and paste the code into the HTML of your site.

8. Copy the iframe-link and paste it into the field "HTML-code zum Einbetten" in your CMS-template.

Embedding Youtube

1. Launch the video on Youtube.
2. Below the video select the "Share" (German "Teilen") tab.
3. Select the option "Embed", in German "Einbetten".
4. Configure settings.
 - a) Deselect the option "Show suggested videos when the video finishes".
 - b) Select the option "Enable privacy-enhanced mode"
5. Copy iframe-code and paste in the HTML-field of the CMS template.

Embedding Google Maps

See FAQ: <http://www.physik.fu-berlin.de/en/service/it/dienste/cms-faqs/index.html>

Embedding Facebook

1. Go to: <https://developers.facebook.com/docs/plugins/page-plugin>
Here you can generate the HTML-Code for embedding a like-box in your website.
2. Enter the URL of the facebook page to be embedded into the field "Facebook page URL".
3. You can now configure how the facebook page should be embedded:
 - a. Set the desired width and height of the element to be embedded. Please consider the standard dimensions in CMS: one column is 182 px wide and the page contains 5 columns, the standard layout is 1 x 3 x 1 column.
 - b. You can choose between a light and a dark color scheme.
 - c. For privacy reasons the option "Show Friends' Faces" should be deselected.

d. If you select "Show Posts", the posts of the relevant facebook profile are being automatically embedded, too.

e. Optionally you can embed the banner "Find us on Facebook" by selecting the "Show Header" option.

f. You can surround your content with a border by selecting the "Show Border" option.

4. Once you have selected the desired options, you can click on the "Get Code" button.

The screenshot shows the configuration interface for embedding a Facebook page. The fields and options are annotated with green boxes and numbers:

- 2**: Facebook Page URL field containing `https://www.facebook.com/freieuniversitaetberlin`.
- 3a**: Width field set to 400.
- 3b**: Height field set to 600.
- 3c**: Show Friends' Faces (deselected).
- 3e**: Show Header (deselected).
- 3f**: Show Border (selected).
- 3d**: Show Posts (selected).
- 4**: "Get Code" button at the bottom left.

The preview area shows a Facebook post from Freie Universität Berlin with a photo of Professor Peter-André Alt.

Click on the iFRAME tab und copy the link.

5. Paste this link into the field "HTML-Code zum Einbetten" in your CMS template.
