

Berl i N a n o

**the new seminar in Berlin on nanophysics and related
nanosciences**

second mini workshop

when: Friday, 10th of February at 14:00 (s.t.)

where: FU-Berlin, Hörsaal A (1.3.14), Arnimallee 14, 14195 Berlin

program: 14:00 **Paulo Santos** – PDI Berlin

Flying excitons in semiconductor quantum wells

14:30 discussion

14:45 **Katja Höflich** – HZB Berlin

Direct Nanofabrication using Focused Electrons and Ions

15:50 **open discussions and coffee break**

16:30 **Ingo Salzmann** – HU Berlin

Charge-transfer crystallites as molecular electrical dopants

16:35 **Antonio Setaro** – FU Berlin

Advanced functionalization of carbon nanotubes

17:10 official end

afterwards: unofficial spontaneous come together
