

Selected Topics in Physics / Ausgewählte Themen der Physik:

"Recent trends and topics in molecular and cellular biophysics"

Friday 16 - 18 o'clock - Arnimallee 14, SR E1 (1.1.26)

Date	Name	Topic
18.11.2011	Boris Repen	Optimization of photometric P _i detection
02.12.2011	Constantin Schneider	Molecular switches in G-Protein Coupled Receptors (GPCRs)
09.12.2011	Dimitry Kurzhunov	To be announced
06.01.2012	Thomas Schlieter	Theoretical concepts of superresolution in Microscopy
13.01.2012	Guest speaker; talk given at the <i>Physics Kolloquium</i>. Important: talk starts at 15:00 in Hörsaal A!	
20.01.2012	Mahir Yildiz	FCS spectroscopy & microscopy of nuclear receptors
27.01.2012	Christina Seidler / Alexander Boreham	Superresolution (localization) Microscopy
