# Research Group Pitches

## Physicists present their scientific work and teams

### Room 1

- Alexiev
- Noé
- Kuch
- Reuther

### Room 2

- Weinelt
- Behrends
- Dau
- Horch
- Netz
- Vrakking

### Room 3

- Brouwer
- Eisert
- Lips, HZB
- Clementi
- Erlemann
- Koch

# gather.town

**What you need:**

- A **desktop/laptop** with **microphone** and **camera**.
- A web browser (Chrome recommended).
- We strongly recommend using **headphones** to help prevent feedback.
- That's it! There's nothing to install, no software to download.

**How it works:**

- Gather is a video chat platform that has avatars move around a map. As you get close to other avatars, your video's will pop up and you will be able to chat.
- Move around the space using the **arrow keys**.
- By moving your avatar around you can have spontaneous conversations with those around you. These can be either one-on-one or small groups depending on how many people are around your avatar.
- When your avatar moves closer to an interactable object (poster), there will be a notification that shows up saying 'Press x to interact with -object-'.
- Technical difficulties: Refreshing the page will fix most things!
- If that doesn't work, try muting and unmuting your mic and camera in Gather.
- Check if your browser permitted camera and mic access
