

**CORE ISSUES – KERNFRAGEN**, produced by portraittheater Wien, brings Lise Meitner (center) back into the same auditorium, the Auditorium Maximum, today the Max-Kade-Auditorium, in the Henry-Ford Building, where she received the honorary doctor's degree in physics by the dean Richard Scherhag of the faculty of mathematics and natural science of the Freie Universität Berlin (next to the right) on May 11, 1957. Max von Laue (extreme right) is carefully looking at the document, to the left Louise Schroeder, in between the rector Andreas Paulsen.
